- Field linguistics meets biology: how to obtain scientific designations for plant and animal names Authors: David W. Fleck

The contents of STUF are in general of interest to field linguists. The statement of purpose and self-description of the journals follows:

STUF - Sprachtypologie und Universalienforschung
Language Typology and Universals
ISSN 0942-2919

Founded 1948.
Four issues a year.

"STUF" is a forum for scholarly articles in the realm of linguistic typology and universals research. The journal covers original empirical and/or theoretical studies of the structural diversity and/or of the invariants of human language(s). Equally welcome are contributions to the historiography of linguistic typology and universals research. "STUF" especially encourages potential contributors to submit papers with a learning towards areal typology and/or diachronic typology.
