Scapula

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Humerus

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Radius

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

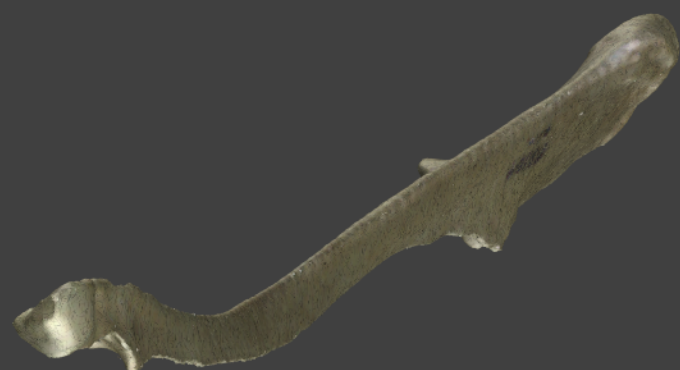

Invent.Nr.: 05/01

male, adult

Ulna

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Metacarpal

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

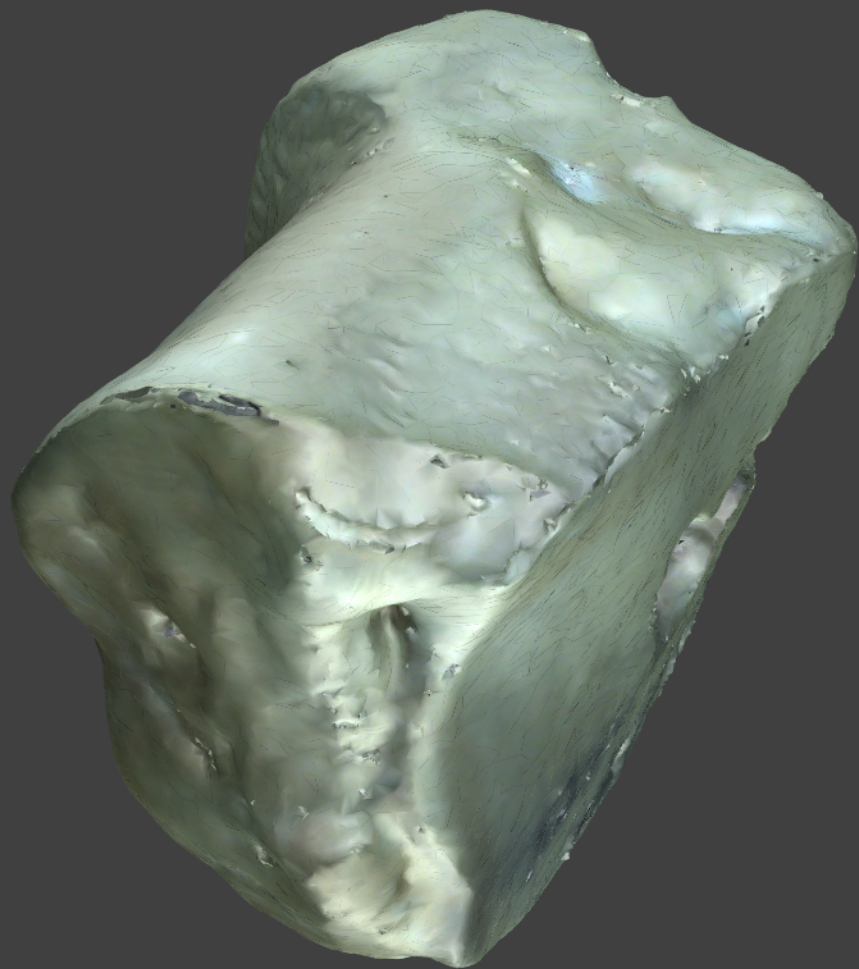

Invent.Nr.: 05/01

male, adult

Magnum

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

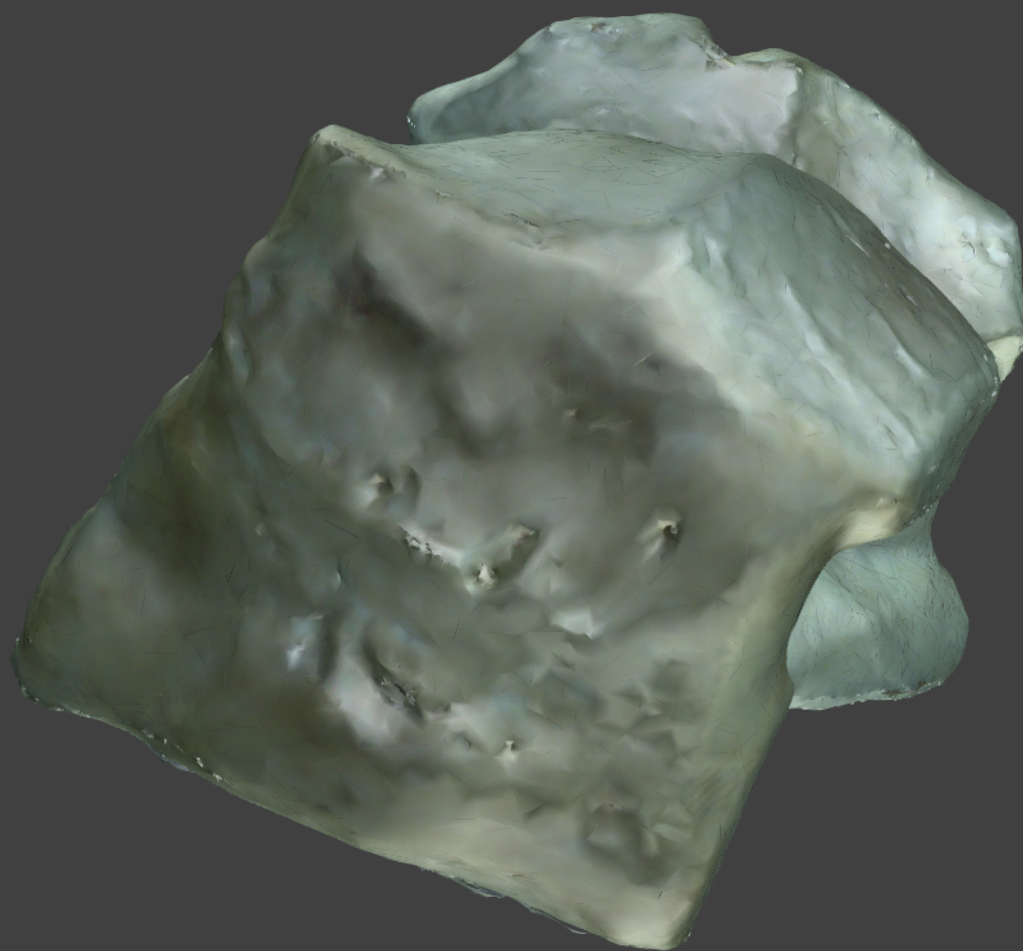

Invent.Nr.: 05/01

male, adult

Lunate

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

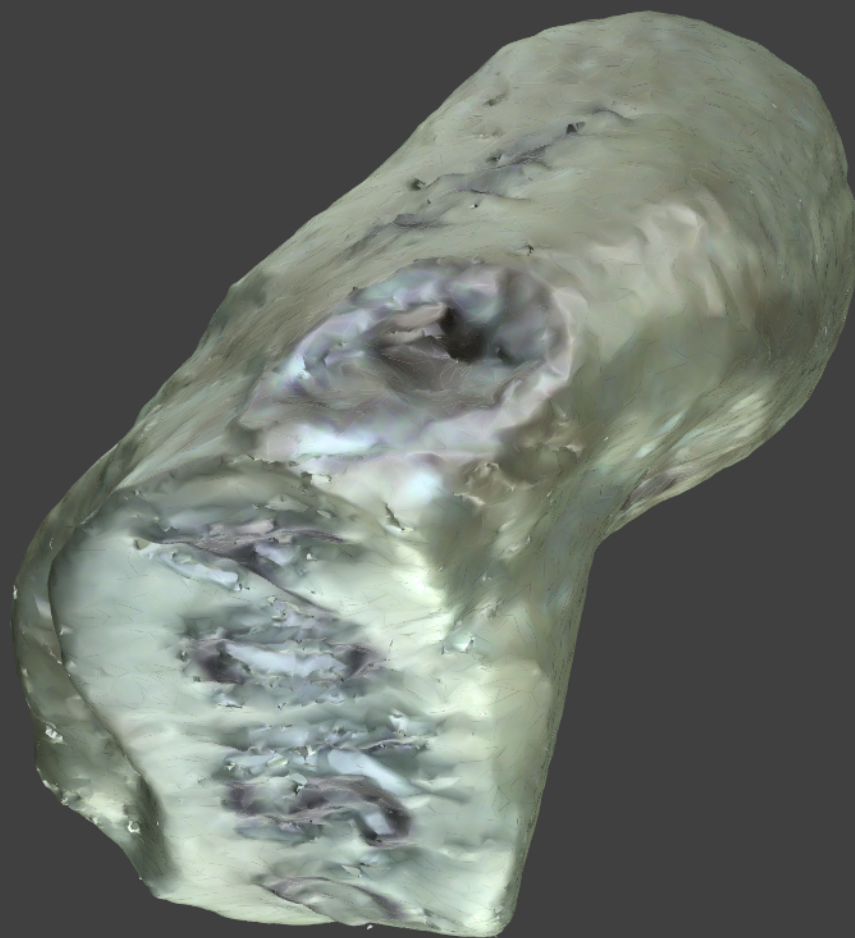

Invent.Nr.: 05/01

male, adult

Pisiform

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

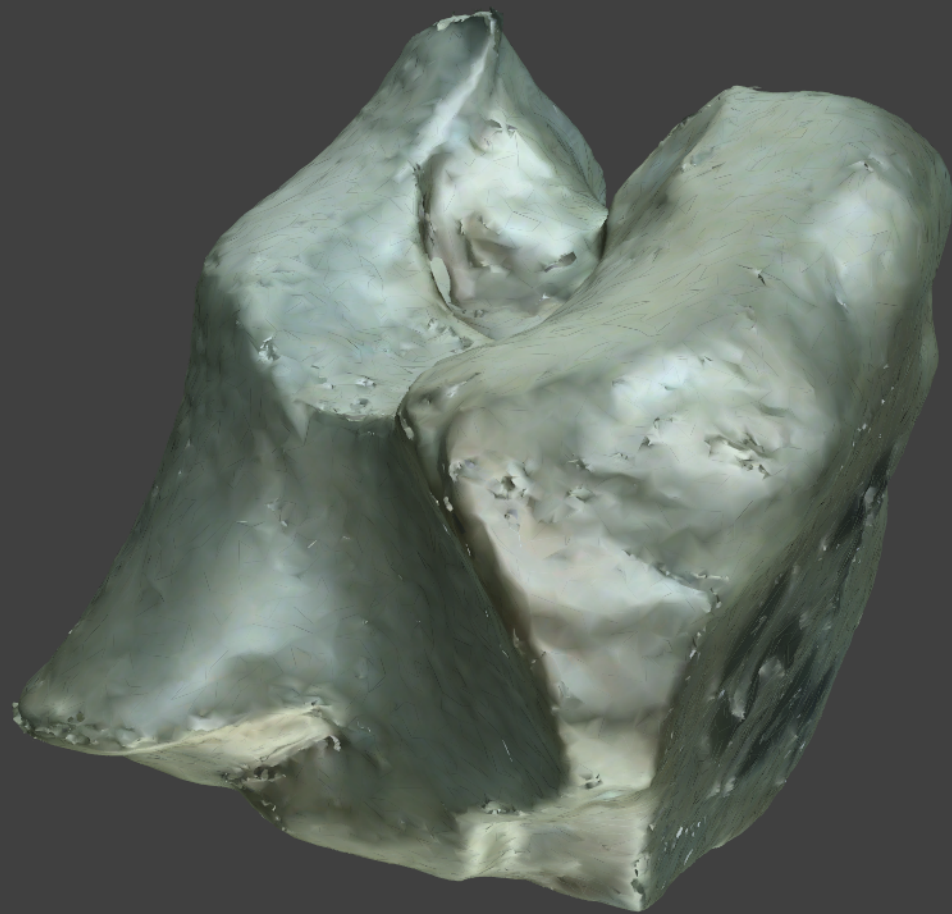

Invent.Nr.: 05/01

male, adult

Unciform

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Scaphoid

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig
