

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Femur

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Patella

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Tibia

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Metatarsal

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Astragalus

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Calcaneus

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Cuneiform

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Triquetral

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Navicular

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Phalanx I

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Phalanx II

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig

Cervus elaphus

Invent.Nr.: 05/01

male, adult

Phalanx III

All images are of left sided elements (except axial skeleton).

Specimen from MPI-EVA comparative collections, Leipzig
